Advice

The stickers should not be placed where the physical contact may damage them. You are advised to print the stickers on photographic adhesive paper (it is more expensive than the normal paper but a high-quality will be obtained and the damage of the stickers will be delayed).

Thanks to **fusednetwork.com** for **donating** the domain name, all the space and the bandwidth we need for the book files.

Thanks to **MindTouch** for **donating** the space and the bandwidth we need for the Mirror 1.

Thanks to **Oreto Research Group** for **donating** space for the mirror 2.

How to participate?

- 1.- You can send your sticker/s to stickers@pikao.org
- 2.- It would be interesting to add text related to sticker/s (a few history and important information). You can send us text to stickers@pikao.org

What is Free Software?

“Free software” is a matter of liberty, not price. To understand the concept, you should think of “free” as in “free speech”, not as in “free beer”.

Free software is a matter of the users' freedom to run, copy, distribute, study, change and improve the software. More precisely, it refers to four kinds of freedom, for the users of the software:

- The freedom to run the program, for any purpose (freedom 0).
- The freedom to study how the program works, and adapt it to your needs (freedom 1). Access to the source code is a precondition for this.
- The freedom to redistribute copies so you can help your neighbor (freedom 2).
- The freedom to improve the program, and release your improvements to the public, so that the whole community benefits (freedom 3). Access to the source code is a precondition for this.
